

## **Redirects**

To facilitate easier sharing of direct links with the fellowship, and to ensure the links the fellowship have remain current after we update files, our Website Developer created a series of **easy links (aka redirects)**.

Please **share these links** with folks whenever you are referring to one of these files.

*\*\*If you have a file that you **regularly share** and would like an easy link for it, please talk to the Website Chair for further discussion and possible action.\*\**

**Note:** Redirects are **case sensitive**, so when someone is typing in one of the below addresses, the part after **.org** needs to be lowercase.
