

Glide app to Android Instructions

To be able to put the BC Yukon Area 79 Literature Glide app on your Android device is simple and straight forward.

Scan the QR code with your phone QR reader.

Once the app opens up on your browser, go to the top righthand corner of your screen where you will find the 3 dot menu

Click on the 3 dot menu and scroll down till you find the “add to home” click on that and the Glide app icon will be added to your home screen where one can access the app at any time.
